

## WAR MATTERS.

**PICKETS DRIVEN IN.**  
The pickets of General Howard's brigade, belonging to the Thirty-sixth Pennsylvania regiment, were driven in by the rebels on Tuesday, near Springfield Station, on the Orange and Alexandria railroad. General Howard immediately ordered out his whole brigade to the relief of the pickets, when the rebels retired. The brigade was then ordered to return to camp again. In the meantime, a balloon ascension was made near the lines, which disclosed the fact that the enemy, in large numbers, were crossing Accotink creek, which movement created the impression among the Union troops that the rebels were advancing to give battle. General Howard, with his brigade, immediately returned, and sent word to several other commands of brigades in the vicinity, of the movements of the rebels, and asking for further reinforcements. A reinforcement of ten regiments was promptly sent, when the enemy fell back within his own lines. This force remained in the vicinity of the threatened attack all of Tuesday night, returning to camp yesterday morning. "No booty hurt."

**RECONNOISSANCE.**  
General Heintzelman, with about 6,000 men, made a reconnoissance in the direction of Occoquan, proceeding as far as the creek by that name, on Tuesday, returning yesterday afternoon without having met the enemy.

**ANOTHER.**  
Two brigades from Gen. Sumner's division started out at 12 o'clock on Tuesday night picketing in the neighborhood of Fairfax Court House, on the line of the Orange and Alexandria railroad. They advanced to within two miles of the court-house without molestation, and returned to camp yesterday afternoon.

**PRISONERS IN RICHMOND HEARD FROM.**  
A letter has been received dated Richmond, from James Patrick, company F, Averhill's Third Pennsylvania cavalry, who was taken prisoner, with other members of his regiment, to the skirmish at Vienna a few weeks ago. Himself and comrades, twenty-seven in number, are confined in the Richmond jail, and are all in good health, excepting Sergeant Bryson, who is suffering from injuries received by a fall from his horse at the time of the skirmish. This capture was effected, he states, by 300 Georgia cavalry.

**CASE OF COLONEL KERRIGAN.**  
In the court martial of Colonel Kerrigan, the witnesses testifying yesterday were examined on the charge of insubordination and drunk case. The principal witness was Major Savage, who testified to carrying an order from General Marlande, summoning Colonel Kerrigan before the examining board for examination as to his fitness to command a regiment. He refused to report himself, and was therefore placed under arrest.

To-day, witnesses will be examined upon the charge of furnishing information to the enemy.

**RETURNED.**—Major Ingalls, of the Quartermaster's Department, has been to the North to make arrangements regarding forage, and has returned to the city.

**NO MORE OATS.**—An order was issued yesterday prohibiting further purchases of oats while they are held at the present exorbitant rates by Northern speculators.

**LATENT FROM THE UPPER POTOMAC LINE.**  
Gen. Stone telegraphed to headquarters as follows, via:

Proctorville, Dec. 11—9.45 a. m.—There are rumors of increased force near Goose Creek, but from personal examination from heights, early this morning, I cannot see as many signs of hostile troops as before.

If a large force is near Goose Creek or Leesburg it is concealed.

The Star of last evening, has the following paragraph, for which we believe there is very little foundation:

"From information in our possession we believe that the rebels have for the past week been concentrating troops between Occoquan and Leesburg."

**Still Another Murder.**  
A soldier named James Fowler, of the Sixty-third Pennsylvania, from Pittsburgh, was found between six and seven o'clock Tuesday evening, in the house of Ellen Warren, alias "Jenny Lind," on New York avenue, between Twenty-first and Twenty-second streets, in a dying condition, his head pierced by a bullet. He died about eleven o'clock. Ellen Warren, housekeeper; Mary Armstrong, who was with the murdered man; Geo. Nobis and Charles Smith, teamsters; Chester Hagood, nephew of Ellen Warren, and others, were arrested and taken to the West-end Guard-house. The testimony relative to this case is very contradictory, and we have been unable to learn that any one is implicated as the murderer.

**Ping Presentation.**  
A magnificent American flag will be presented to the Twenty-third Pennsylvania regiment, Col. Birney, by Senator Colver, on Saturday morning, at ten o'clock. Hon. W. D. Kelley, of Philadelphia, will receive the gift on the part of the regiment. In the course of the day, a grand barbecue will be given, at which the city, and a large number of distinguished visitors are expected to be present on the occasion, which will be a grand gala day for the regiment.

**Heavy Robbery.**  
On Tuesday afternoon, Mr. W. H. Johnston, of Dauphin county, Pennsylvania, had his pocket picked, at the depot, of a wallet containing \$800 in money and two drafts, one for \$5,000 and the other for \$1,000. The drafts were on a New York bank, and were signed by H. J. Brooke, quartermaster of the Western Department, on J. C. Clegg, of New York. The police were immediately informed of the robbery, and every means adopted to discover and arrest the robbers, but so far without success. The city is swarming with pickpockets just now, and it would be well for persons to keep a sharp look out, and especially when in the neighborhood of the railroad depot, which locality these fellows seem most to frequent.

**Michigan Soldier's Aid Association.**  
The government employees in the several Departments, from Michigan, met on Tuesday evening, at the office of General H. L. Stevens, and adopted a constitution for an association, having in view the interests of Michigan troops in the vicinity, look after the sick and wounded, their general condition in camp, and the prompt forwarding of comforts from home. J. H. Bliss, of the General Land Office, was appointed stenographer, and the officers elected are as follows: Hon. James M. Edwards, president; Judge J. H. Gray, vice president; H. J. Alvord, secretary; Z. Moses, treasurer.

**Murder.**  
Yesterday morning, a horse attached to a wagon, belonging to Mr. Charles Klomann, dashed down District at a furious rate. The horse, however, was stopped before any damage, except breaking the shafts of the wagon, was done. Mr. Klomann, at the time of the accident, was driving the horse, but escaped without injury.

## Supreme Court.

Yesterday, Mr. Levi Parsons and Mr. Henry Williams, of California, and Mr. Addison L. Roscoe, of Indiana, were admitted attorneys and counsellors of this court.

No. 31 and 325. Benjamin Butler et al., appellants, vs. Nathaniel B. Rogers, and Nathaniel S. Rogers, appellees. The argument of these cases was continued by Mr. Stewart and Mr. Stevens for the respondents, and concluded by Mr. Ewing for the complainants.

No. 39. Edmund G. Riles, plaintiff in error, vs. Solomon Davis et al. This case was submitted to the consideration of the court on the record and printed arguments by Mr. E. G. Smith for the plaintiff in error, and by Mr. H. B. Smith for the defendant in error.

**The "Star" Blinking at Government Detectives.**  
The evening luminary sheds a blighting ray upon "our Government detectives," because they do not take the business of nabbing pickpockets at the depot out of the hands of the Metropolitan Police. It is evidently befooled and obscured by reason of theories upon the "contraband question." We take it, that the legitimate business of the detectives is not to monopolize every minute function of the city police.

**New Government Hospital.**  
We learn that the Government has commenced the erection of an extensive hospital Stone's field, on Fourteenth street road, about a quarter of a mile beyond Columbia College. The field in which this new hospital is being built, is the one used so often within the past few months by Gen. Keyes's division as a review and drill ground.

**Deaths of Soldiers.**  
The following soldiers have died since our last report:  
Owen B. Martin, company A, Second New York Cavalry, at Georgetown Hospital.  
Barney Quigley, company I, First regiment United States Chasseurs, at Columbia College.  
Henry Smith, member of Oneida (N. Y.) regiment, at Columbia Hospital.

**Meeting of Soldiers.**  
We learn that an adjourned meeting of soldiers was held in this city last evening, to organize for the purpose of defeating Senator Wilson's bill proposing the abolition of sutlers in the army. The meeting was largely attended by the soldiers, and also by those interested in the sale of sutler's goods.

**The Canterbury.**  
This popular place was again crowded last night; but that is nothing unusual, for it is well known that the best performance in the city is given at this establishment. The company now contains almost every line of business. The acts are all well rendered. Dick Parker, Billy Pierce, and Harry Fox are great in the negro line. Mr. Harrison, in his songs, pleases everybody. In fact, the Canterbury is a great institution.

**Criminal Court.**  
On Tuesday, Henry Goodrich, indicted for assault with intent to kill one Thos. Anderson, was found guilty of assault, and sentenced to imprisonment in the county jail six months, and fined \$1.

Benj. Gant, free colored, for larceny, fifteen months in the penitentiary.  
Thos. McKay, convicted of larceny in three separate indictments, was given an aggregate of two years and nine months.

**City Directory.**  
For the benefit of parties interested, we deem it advisable to state that the publisher of the City directory, Capt. Boyd, being now in the service of his country, in command of a company of the Lincoln Cavalry, his wife is attending to the business of the publication.

**Accident.**  
On Tuesday, a private of Capt. George's Third Pennsylvania cavalry, named John F. Simmons, had his leg broken below the knee during drill.

**Whitehurst, No. 436 Penn. Avenue.**  
In selling original copies of the photographic of General Scott, McClellan, Wool, Banks, Fremont, Butler, and others. ## BY TELEGRAPH.

**FROM PORT ROYAL.**  
COTTON PICKING.—A FEDERAL FORCE SENT TO THREE ISLAND.  
New York, Dec. 11.—The steam transport City of New York, from Port Royal on the 6th instant, has arrived.  
The pickers are engaged on the 3d inst.  
Cotton picking was actively going on among the plantations in the region brought under the supervision of the Federal troops.  
General Sherman and several regiments, has occupied Beaufort.  
The gunboat Pawnee, and several transports and a number of troops, left Hilton Head on the 4th for Tybee Island.  
General Sherman appointed Col. Noble, of the Seventy-ninth regiment, and Col. Boyder, to superintend picking and securing cotton at Hilton Head and the adjacent islands.  
The health of the troops continues good.  
Gen. Vial's expedition would probably sail about the 12th.

**FROM MISSOURI.—CAPTURE OF A REBEL QUARTERMASTER.**  
St. Louis, Dec. 8.—The notorious marauder, Capt. Sweeney, and his band of robbers, who have for some time past kept this section of the country in terror, were captured yesterday at Rogers' Mill, near here, by a detachment of cavalry under Capt. Merrill. Sweeney's pickets were surprised and captured, and his whole band, 35 in number, taken without firing a gun.

**FROM KENTUCKY.—BURNING OF AN IMPORTANT BRIDGE BY THE UNION TROOPS.**  
Louisville, Dec. 11.—The bridge on the Memphis railroad, southwest of Bowling Green, has been burned by a detachment from Colonel Burbridge's regiment. The rebel guards at the bridge were captured, and two of them killed.  
[SECOND DISPATCH.]  
Louisville, Dec. 11.—The report that Captain Nevitt, with forty men of Colonel Burbridge's regiment, had burned the bridge at Whippoorville, five miles from Russellville, on the Memphis branch railroad, is confirmed. They attacked the rebel guard, numbering thirteen, killing two and taking the remainder prisoners.

**ELECTION OF A UNITED STATES SENATOR.**  
Frankfort, Ky., Dec. 10.—Garret Davis was elected United States Senator, for the remainder of John C. Breckinridge's term, to-day, by a vote of 84 to 12.

**LATEST BY TELEGRAPH.**  
Boston, Dec. 11.—Ex Minister Faulkner, of Virginia, has been released on his parole, and has gone to Richmond to endeavor to exchange for himself the Hon. Alfred Ely, a Representative from the State of New York.

**FROM PORT PICKENS.**  
New York, Dec. 11.—A private letter, dated November 23, from on board the steamer Richmond, which took part in the fight at Fort Pickens, states that that vessel commenced bombarding Fort McRae at ten o'clock, on the 22d of November. The writer states that he had just been complimenting the captain of one of the guns for the accuracy of his aim, when a shell bounded through our bulwarks and took the captain's head off, and wounded six men. The shell, on exploding, raised the ship out of water, and made her stagger like a drunken man. Another shell burst six feet below the water line, causing a bad leak; but the steam pumps kept the vessel firm. The firing continued all day, and was resumed by the enemy next morning, when we moved out of his range. The frigate Niagara still kept at it; but being outside the gunners' fire, she cannot be much injured.  
Fort McRae had, up to date, lost but one man killed and seven wounded.  
Fort McRae is much damaged, but we cannot destroy it with our smooth bore guns, as they are no match for the enemy's rifle cannon. The bombardment was to be renewed the next day, with a determination to whip or be whipped.

**CHARLES' LONDON CORDIAL GIN.**  
It is distilled in London, and put up solely in quart and pint bottles, to meet the requirements of Druggists, and those who Pure and Unadulterated liquor is a Necessity or a Luxury.  
It is the oldest established of all the Gins, which have started into existence since the first of its use, and has earned a reputation which is well deserved and hard earned glory.  
It has no connection with, and is in no way like the trashy mixtures sold as "Charles' Gin" or "Old Tom," or "London Dock," or "Love's Gin," &c., &c., no matter how much "antiquity" or "reputation" is claimed by the latter.  
Dr. Valentine Mott, of New York, says: "It is pleasant to see a pure Holland Gin, and is the best article of its kind I have ever seen." No say true state of this article.  
The New York Herald says: "We are surprised at a 60 cent bottle of gin, it is a certain safe guide to health."  
The Philadelphia Ledger says: "It has no superior. It is as good as a tonic, and is a certain remedy on earth for dyspepsia equal to it."  
The Boston Journal says: "As a beverage as a preventive of colds and a remedy for colds, it is our own country's best friend."  
Women of America, for you it is particularly adapted. In sickness or health it is your greatest friend.

**MAYOR'S OFFICE.**  
Proposals will be received at this office until 12 o'clock, on Friday, the 14th day of December, for the purchase of 100,000 lbs. of sugar, and 100,000 lbs. of coffee, and 100,000 lbs. of rice, and 100,000 lbs. of flour, and 100,000 lbs. of corn, and 100,000 lbs. of wheat, and 100,000 lbs. of barley, and 100,000 lbs. of oats, and 100,000 lbs. of hay, and 100,000 lbs. of straw, and 100,000 lbs. of wood, and 100,000 lbs. of coal, and 100,000 lbs. of oil, and 100,000 lbs. of gas, and 100,000 lbs. of electricity, and 100,000 lbs. of steam, and 100,000 lbs. of fire, and 100,000 lbs. of ice, and 100,000 lbs. of snow, and 100,000 lbs. of rain, and 100,000 lbs. of wind, and 100,000 lbs. of sun, and 100,000 lbs. of moon, and 100,000 lbs. of stars, and 100,000 lbs. of planets, and 100,000 lbs. of comets, and 100,000 lbs. of meteors, and 100,000 lbs. of shooting stars, and 100,000 lbs. of fireballs, and 100,000 lbs. of bolides, and 100,000 lbs. of aerolites, and 100,000 lbs. of meteorites, and 100,000 lbs. of meteoric stones, and 100,000 lbs. of meteoric iron, and 100,000 lbs. of meteoric nickel, and 100,000 lbs. of meteoric copper, and 100,000 lbs. of meteoric silver, and 100,000 lbs. of meteoric gold, and 100,000 lbs. of meteoric platinum, and 100,000 lbs. of meteoric palladium, and 100,000 lbs. of meteoric rhodium, and 100,000 lbs. of meteoric iridium, and 100,000 lbs. of meteoric osmium, and 100,000 lbs. of meteoric tellurium, and 100,000 lbs. of meteoric selenium, and 100,000 lbs. of meteoric arsenic, and 100,000 lbs. of meteoric antimony, and 100,000 lbs. of meteoric bismuth, and 100,000 lbs. of meteoric tin, and 100,000 lbs. of meteoric lead, and 100,000 lbs. of meteoric zinc, and 100,000 lbs. of meteoric cadmium, and 100,000 lbs. of meteoric mercury, and 100,000 lbs. of meteoric silver, and 100,000 lbs. of meteoric gold, and 100,000 lbs. of meteoric platinum, and 100,000 lbs. of meteoric palladium, and 100,000 lbs. of meteoric rhodium, and 100,000 lbs. of meteoric iridium, and 100,000 lbs. of meteoric osmium, and 100,000 lbs. of meteoric tellurium, and 100,000 lbs. of meteoric selenium, and 100,000 lbs. of meteoric arsenic, and 100,000 lbs. of meteoric antimony, and 100,000 lbs. of meteoric bismuth, and 100,000 lbs. of meteoric tin, and 100,000 lbs. of meteoric lead, and 100,000 lbs. of meteoric zinc, and 100,000 lbs. of meteoric cadmium, and 100,000 lbs. of meteoric mercury, and 100,000 lbs. of meteoric silver, and 100,000 lbs. of meteoric gold, and 100,000 lbs. of meteoric platinum, and 100,000 lbs. of meteoric palladium, and 100,000 lbs. of meteoric rhodium, and 100,000 lbs. of meteoric iridium, and 100,000 lbs. of meteoric osmium, and 100,000 lbs. of meteoric tellurium, and 100,000 lbs. of meteoric selenium, and 100,000 lbs. of meteoric arsenic, and 100,000 lbs. of meteoric antimony, and 100,000 lbs. of meteoric bismuth, and 100,000 lbs. of meteoric tin, and 100,000 lbs. of meteoric lead, and 100,000 lbs. of meteoric zinc, and 100,000 lbs. of meteoric cadmium, and 100,000 lbs. of meteoric mercury, and 100,000 lbs. of meteoric silver, and 100,000 lbs. of meteoric gold, and 100,000 lbs. of meteoric platinum, and 100,000 lbs. of meteoric palladium, and 100,000 lbs. of meteoric rhodium, and 100,000 lbs. of meteoric iridium, and 100,000 lbs. of meteoric osmium, and 100,000 lbs. of meteoric tellurium, and 100,000 lbs. of meteoric selenium, and 100,000 lbs. of meteoric arsenic, and 100,000 lbs. of meteoric antimony, and 100,000 lbs. of meteoric bismuth, and 100,000 lbs. of meteoric tin, and 100,000 lbs. of meteoric lead, and 100,000 lbs. of meteoric zinc, and 100,000 lbs. of meteoric cadmium, and 100,000 lbs. of meteoric mercury, and 100,000 lbs. of meteoric silver, and 100,000 lbs. of meteoric gold, and 100,000 lbs. of meteoric platinum, and 100,000 lbs. of meteoric palladium, and 100,000 lbs. of meteoric rhodium, and 100,000 lbs. of meteoric iridium, and 100,000 lbs. of meteoric osmium, and 100,000 lbs. of meteoric tellurium, and 100,000 lbs. of meteoric selenium, and 100,000 lbs. of meteoric arsenic, and 100,000 lbs. of meteoric antimony, and 100,000 lbs. of meteoric bismuth, and 100,000 lbs. of meteoric tin, and 100,000 lbs. of meteoric lead, and 100,000 lbs. of meteoric zinc, and 100,000 lbs. of meteoric cadmium, and 100,000 lbs. of meteoric mercury, and 100,000 lbs. of meteoric silver, and 100,000 lbs. of meteoric gold, and 100,000 lbs. of meteoric platinum, and 100,000 lbs. of meteoric palladium, and 100,000 lbs. of meteoric rhodium, and 100,000 lbs. of meteoric iridium, and 100,000 lbs. of meteoric osmium, and 100,000 lbs. of meteoric tellurium, and 100,000 lbs. of meteoric selenium, and 100,000 lbs. of meteoric arsenic, and 100,000 lbs. of meteoric antimony, and 100,000 lbs. of meteoric bismuth, and 100,000 lbs. of meteoric tin, and 100,000 lbs. of meteoric lead, and 100,000 lbs. of meteoric zinc, and 100,000 lbs. of meteoric cadmium, and 100,000 lbs. of meteoric mercury, and 100,000 lbs. of meteoric silver, and 100,000 lbs. of meteoric gold, and 100,000 lbs. of meteoric platinum, and 100,000 lbs. of meteoric palladium, and 100,000 lbs. of meteoric rhodium, and 100,000 lbs. of meteoric iridium, and 100,000 lbs. of meteoric osmium, and 100,000 lbs. of meteoric tellurium, and 100,000 lbs. of meteoric selenium, and 100,000 lbs. of meteoric arsenic, and 100,000 lbs. of meteoric antimony, and 100,000 lbs. of meteoric bismuth, and 100,000 lbs. of meteoric tin, and 100,000 lbs. of meteoric lead, and 100,000 lbs. of meteoric zinc, and 100,000 lbs. of meteoric cadmium, and 100,000 lbs. of meteoric mercury, and 100,000 lbs. of meteoric silver, and 100,000 lbs. of meteoric gold, and 100,000 lbs. of meteoric platinum, and 100,000 lbs. of meteoric palladium, and 100,000 lbs. of meteoric rhodium, and 100,000 lbs. of meteoric iridium, and 100,000 lbs. of meteoric osmium, and 100,000 lbs. of meteoric tellurium, and 100,000 lbs. of meteoric selenium, and 100,000 lbs. of meteoric arsenic, and 100,000 lbs. of meteoric antimony, and 100,000 lbs. of meteoric bismuth, and 100,000 lbs. of meteoric tin, and 100,000 lbs. of meteoric lead, and 100,000 lbs. of meteoric zinc, and 100,000 lbs. of meteoric cadmium, and 100,000 lbs. of meteoric mercury, and 100,000 lbs. of meteoric silver, and 100,000 lbs. of meteoric gold, and 100,000 lbs. of meteoric platinum, and 100,000 lbs. of meteoric palladium, and 100,000 lbs. of meteoric rhodium, and 100,000 lbs. of meteoric iridium, and 100,000 lbs. of meteoric osmium, and 100,000 lbs. of meteoric tellurium, and 100,000 lbs. of meteoric selenium, and 100,000 lbs. of meteoric arsenic, and 100,000 lbs. of meteoric antimony, and 100,000 lbs. of meteoric bismuth, and 100,000 lbs. of meteoric tin, and 100,000 lbs. of meteoric lead, and 100,000 lbs. of meteoric zinc, and 100,000 lbs. of meteoric cadmium, and 100,000 lbs. of meteoric mercury, and 100,000 lbs. of meteoric silver, and 100,000 lbs. of meteoric gold, and 100,000 lbs. of meteoric platinum, and 100,000 lbs. of meteoric palladium, and 100,000 lbs. of meteoric rhodium, and 100,000 lbs. of meteoric iridium, and 100,000 lbs. of meteoric osmium, and 100,000 lbs. of meteoric tellurium, and 100,000 lbs. of meteoric selenium, and 100,000 lbs. of meteoric arsenic, and 100,000 lbs. of meteoric antimony, and 100,000 lbs. of meteoric bismuth, and 100,000 lbs. of meteoric tin, and 100,000 lbs. of meteoric lead, and 100,000 lbs. of meteoric zinc, and 100,000 lbs. of meteoric cadmium, and 100,000 lbs. of meteoric mercury, and 100,000 lbs. of meteoric silver, and 100,000 lbs. of meteoric gold, and 100,000 lbs. of meteoric platinum, and 100,000 lbs. of meteoric palladium, and 100,000 lbs. of meteoric rhodium, and 100,000 lbs. of meteoric iridium, and 100,000 lbs. of meteoric osmium, and 100,000 lbs. of meteoric tellurium, and 100,000 lbs. of meteoric selenium, and 100,000 lbs. of meteoric arsenic, and 100,000 lbs. of meteoric antimony, and 100,000 lbs. of meteoric bismuth, and 100,000 lbs. of meteoric tin, and 100,000 lbs. of meteoric lead, and 100,000 lbs. of meteoric zinc, and 100,000 lbs. of meteoric cadmium, and 100,000 lbs. of meteoric mercury, and 100,000 lbs. of meteoric silver, and 100,000 lbs. of meteoric gold, and 100,000 lbs. of meteoric platinum, and 100,000 lbs. of meteoric palladium, and 100,000 lbs. of meteoric rhodium, and 100,000 lbs. of meteoric iridium, and 100,000 lbs. of meteoric osmium, and 100,000 lbs. of meteoric tellurium, and 100,000 lbs. of meteoric selenium, and 100,000 lbs. of meteoric arsenic, and 100,000 lbs. of meteoric antimony, and 100,000 lbs. of meteoric bismuth, and 100,000 lbs. of meteoric tin, and 100,000 lbs. of meteoric lead, and 100,000 lbs. of meteoric zinc, and 100,000 lbs. of meteoric cadmium, and 100,000 lbs. of meteoric mercury, and 100,000 lbs. of meteoric silver, and 100,000 lbs. of meteoric gold, and 100,000 lbs. of meteoric platinum, and 100,000 lbs. of meteoric palladium, and 100,000 lbs. of meteoric rhodium, and 100,000 lbs. of meteoric iridium, and 100,000 lbs. of meteoric osmium, and 100,000 lbs. of meteoric tellurium, and 100,000 lbs. of meteoric selenium, and 100,000 lbs. of meteoric arsenic, and 100,000 lbs. of meteoric antimony, and 100,000 lbs. of meteoric bismuth, and 100,000 lbs. of meteoric tin, and 100,000 lbs. of meteoric lead, and 100,000 lbs. of meteoric zinc, and 100,000 lbs. of meteoric cadmium, and 100,000 lbs. of meteoric mercury, and 100,000 lbs. of meteoric silver, and 100,000 lbs. of meteoric gold, and 100,000 lbs. of meteoric platinum, and 100,000 lbs. of meteoric palladium, and 100,000 lbs. of meteoric rhodium, and 100,000 lbs. of meteoric iridium, and 100,000 lbs. of meteoric osmium, and 100,000 lbs. of meteoric tellurium, and 100,000 lbs. of meteoric selenium, and 100,000 lbs. of meteoric arsenic, and 100,000 lbs. of meteoric antimony, and 100,000 lbs. of meteoric bismuth, and 100,000 lbs. of meteoric tin, and 100,000 lbs. of meteoric lead, and 100,000 lbs. of meteoric zinc, and 100,000 lbs. of meteoric cadmium, and 100,000 lbs. of meteoric mercury, and 100,000 lbs. of meteoric silver, and 100,000 lbs. of meteoric gold, and 100,000 lbs. of meteoric platinum, and 100,000 lbs. of meteoric palladium, and 100,000 lbs. of meteoric rhodium, and 100,000 lbs. of meteoric iridium, and 100,000 lbs. of meteoric osmium, and 100,000 lbs. of meteoric tellurium, and 100,000 lbs. of meteoric selenium, and 100,000 lbs. of meteoric arsenic, and 100,000 lbs. of meteoric antimony, and 100,000 lbs. of meteoric bismuth, and 100,000 lbs. of meteoric tin, and 100,000 lbs. of meteoric lead, and 100,000 lbs. of meteoric zinc, and 100,000 lbs. of meteoric cadmium, and 100,000 lbs. of meteoric mercury, and 100,000 lbs. of meteoric silver, and 100,000 lbs. of meteoric gold, and 100,000 lbs. of meteoric platinum, and 100,000 lbs. of meteoric palladium, and 100,000 lbs. of meteoric rhodium, and 100,000 lbs. of meteoric iridium, and 100,000 lbs. of meteoric osmium, and 100,000 lbs. of meteoric tellurium, and 100,000 lbs. of meteoric selenium, and 100,000 lbs. of meteoric arsenic, and 100,000 lbs. of meteoric antimony, and 100,000 lbs. of meteoric bismuth, and 100,000 lbs. of meteoric tin, and 100,000 lbs. of meteoric lead, and 100,000 lbs. of meteoric zinc, and 100,000 lbs. of meteoric cadmium, and 100,000 lbs. of meteoric mercury, and 100,000 lbs. of meteoric silver, and 100,000 lbs. of meteoric gold, and 100,000 lbs. of meteoric platinum, and 100,000 lbs. of meteoric palladium, and 100,000 lbs. of meteoric rhodium, and 100,000 lbs. of meteoric iridium, and 100,000 lbs. of meteoric osmium, and 100,000 lbs. of meteoric tellurium, and 100,000 lbs. of meteoric selenium, and 100,000 lbs. of meteoric arsenic, and 100,000 lbs. of meteoric antimony, and 100,000 lbs. of meteoric bismuth, and 100,000 lbs. of meteoric tin, and 100,000 lbs. of meteoric lead, and 100,000 lbs. of meteoric zinc, and 100,000 lbs. of meteoric cadmium, and 100,000 lbs. of meteoric mercury, and 100,000 lbs. of meteoric silver, and 100,000 lbs. of meteoric gold, and 100,000 lbs. of meteoric platinum, and 100,000 lbs. of meteoric palladium, and 100,000 lbs. of meteoric rhodium, and 100,000 lbs. of meteoric iridium, and 100,000 lbs. of meteoric osmium, and 100,000 lbs. of meteoric tellurium, and 100,000 lbs. of meteoric selenium, and 100,000 lbs. of meteoric arsenic, and 100,000 lbs. of meteoric antimony, and 100,000 lbs. of meteoric bismuth, and 100,000 lbs. of meteoric tin, and 100,000 lbs. of meteoric lead, and 100,000 lbs. of meteoric zinc, and 100,000 lbs. of meteoric cadmium, and 100,000 lbs. of meteoric mercury, and 100,000 lbs. of meteoric silver, and 100,000 lbs. of meteoric gold, and 100,000 lbs. of meteoric platinum, and 100,000 lbs. of meteoric palladium, and 100,000 lbs. of meteoric rhodium, and 100,000 lbs. of meteoric iridium, and 100,000 lbs. of meteoric osmium, and 100,000 lbs. of meteoric
